INTRODUCTION AND GENERAL INDEX

— — — — —

R. L. POLK & CO., publishers of more than 1,400 city and suburban Directories, presents to subscribers and the general public, this, the latest edition of the South Bend City Directory.

Confidence in the continued growth of South Bend's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the City Directory is a mirror truly reflecting South Bend to the world.

The enviable position occupied by R. L. POLK & CO.'s Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the South Bend City Directory will fulfill its mission as a source of authentic information pertaining to the city.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business Section, which embraces a list of the names and addresses of all business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like South Bend, the necessity of having this kind of information up - to - date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This Directory aims to show the name, marital status, occupation and address of each adult resident of South Bend and the name, official personnel, nature and address of each firm and corporation in the city.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers; the names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner - occupied homes, the listing of telephone numbers, new householder symbols and Zip Code numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY, is the fourth major department, printed on blue paper.

Municipal Publicity

The City Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. The publishers have placed copies of this issue of the City Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of South Bend.

The South Bend Directory Library

Through the courtesy of the publishers of the South Bend City Directory, a Directory Library is maintained in the offices of the South Bend - Mishawaka Area Chamber of Commerce, Inc., for free reference by the general public. This is one of many Directory Libraries installed in cities and towns throughout the United States and Canada through the courtesy of your Publisher.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

History and Development

South Bend and environs occupy land which was the scene of dramatic events in the romantic history of America's earliest westward expansion. Here, in December 1679, the intrepid French explorer, Robert Rene Cavalier Sieur de la Salle landed his party on the banks of the St. Joseph River. He made that perilous journey by water up the St. Lawrence, through the Great Lakes, by portage across the divide into tributaries of the "Father of Waters," the Mississippi. LaSalle's portage across the divide in 1679 took him across what is now Riverview Cemetery, through the kingdom of the Miami Indians to the Kankakee River.

Two years later, on this same site under the spreading branches of a great oak tree, LaSalle held his history - making council with the Indian Chiefs, leading to the Miami treaties, Council Oak, a grizzled veteran of those centuries, still stands in Highland Cemetery, a magnificent memento to days of courage and adventure. These interesting and romantic sites are appropriately marked by a monument and bronze tablet.

In 1823, nearly a century and a half later, Alexis Coquillard founded a fur trading post on the banks of the St. Joseph. This development, a short distance south of the LaSalle portage landing, was to become the modern metropolis of South Bend. At that time, this was still Indian territory, although Pierre Navarre, the first white settler, had arrived three years before. His cabin stood on the north side of the river, near what is now the Michigan Street bridge. The name of the settlement was originally Big St. Joseph Station. This was reduced to St. Joseph in 1827 and renamed South Bend two years later. The final change came in 1830 when the post office department officially designated the settlement as South Bend as fitting its site on the south bend of the picturesque St. Joseph River.

In 1842, Very Rev. Edward Sorin, C.S.C. and six Catholic brothers, held a council with the Indians after which was established the University of Notre Dame. In 1844 the Mother House of the Sisters of the Holy Cross and St. Mary's college was opened at Bertrand, Michigan. In 1855 both establishments were moved to what is now Notre Dame, Indiana, just opposite the University of Notre Dame.

Today Saint Mary's College is one of the nation's leading schools for young women, and the Saint Mary's Convent is known the world over.

Out of Sight--Out of Mind

☆ Out of Business ☆

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

City Directory Advertisers

By having and using your own copy of the local City Directory, you can positively identify—and reach—the kind of person, business firm and family that are most likely to be in the market for the type of product or service that you sell. Through the City Directory you'll be reaching the individuals and businesses with the top purchasing power in your community . . . those who consistently buy when they want to buy, not when they have to.

By advertising in your local City Directory, you can make sure these same people can identify and locate YOU.

You join with the backbone of your community business life; you become an integral part of the permanently established, successful firms in your community when you advertise in your local City Directory. This is prestige advertising without the financial penalties normally associated with prestige advertising.

United Way Centennial 1887 — 1987

A Century of Service

The United Way has remained strong throughout its history of caring as a volunteer movement, a community organization, and as a local network of community services because it has not allowed itself to become complacent in its success.

The modern United Way has accepted the challenge of confronting the changing needs of our changing society with vision and has adopted a clear mission - "To increase the organized capacity of people to care for one another."

The United Way of St. Joseph County supports 37 local United Way Agencies that respond to the changing needs of our community and serve over 70,000 people annually.

Out of Sight!

Out of Mind!

Out of Business!

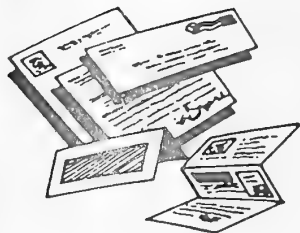

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

A good broker doesn't play on your emotions.

A good broker gives you facts you need to take charge of your investments. He answers your questions. Provides good counsel. And promptly handles your transaction orders.

He doesn't set up his own agenda for you, either. Instead, he clues you in on investment opportunities that meet your personal goals — in stocks, bonds, government securities, tax-free investments, self-directed IRAs, margin accounts, or various options.

Best of all, he's not a commissioned salesperson. He's a salaried professional whose only job is to service your needs.

So where do you find a good broker like this? Your best source is 1st Source Bank! Visit our South Bend Main Office or call 236-2286 today and we'll send you details, that'll make you happy! After all, *some* emotion is okay!

Study all directory advertising invoices carefully

Business and Classified Directory publishers under various names have flooded our mails for several years with solicitations resembling City Directory invoices. Most such solicitations state that they are not invoices, but nevertheless business people frequently overlook this and process them for payment.

What seems like an invoice may really be a carefully worded proposal for service — of an indefinite nature — and questionable value—to be rendered in the future, *if you pay in advance*. If in doubt, check with your local Better Business Bureau, or your established City Directory publisher.

Before you invest, investigate!
